MEMBERSHIP APPLICATION

Purpose of the Organisation

The purpose of the Association is to foster community connection to and care for the environment and each other. Our activities will be focused on establishing a community gathering and learning place at Downs Estate, Seaford.

Activities will include building community resilience and wellbeing, connection to local history and culture, demonstrating and teaching sustainable food production to increase local food security and actively enhancing the natural environment. We will deliver activities primarily on site with outreach via digital platforms and other local and State organisations and facilities. We will work with Frankston City Council in a productive way for the benefit of the community and environment.

At all times we will respect the Traditional Owners of Down's Estate, the Boonerwung and Bunurong, their elders, past and present and their ongoing connection to the land. We will respect the natural environment surrounding and within parts of Downs Estate, the challenge of rapid climate change, the balancing human needs with those of the land and its flora and fauna, along with the past, present and future value of the site for the local community and visitors to Frankston City.

I agree to support the purposes of Down's Estate Community Project and to comply with the rules of this Association.

I declare I am over the age of 18 and I hereby apply to become a Member of the Down's Estate Community Project.
